

## Property Information Sheet

### Name and Address

Mike & Heather Streetly  
36 Belle Vue Road  
Shrewsbury  
SY3 7LL

### Property Description

Victorian semi-detached, solid wall brick construction with a slate roof, and modern, single storey extension at rear  
Within the Belle Vue conservation area

### What changes have you made to your home?

- 1) Ventrolla draft excluders on sash windows
- 2) Secondary glazing
- 3) Internal insulation on north facing walls, 50mm polystyrene foam backed with plasterboard
- 4) Underfloor insulation in lounge, 80mm Celotex
- 5) Schriyver damp proofing (<https://www.damp.co.uk/schrijver-system/how-it-works/>) some people on the web don't like this but it worked for us!
- 6) Solar panels, 3.8kWp 16 panels, generates around 3200kWh per year
- 7) Roof insulation, fibreglass
- 8) LED lighting

### Why did you make these changes?

To make the house less damp/draughty and to save/generate energy

### What were the approximate costs?

- 1) £4000 (2000 price)
- 2) About £50-100/window
- 3) About £1400 per room (2014 price) including redecorating
- 4) ?
- 5) £2400 (2005 price)
- 6) £12000 (2011 price)
- 7) Readily available and cheap
- 8) Readily available and cheap

### What have been the approximate energy savings?

Current gas use is 6700 kWh per year, which includes hot water and cooking as well as heating

**Property Information Sheet continued...**

What have been the effects on your home?

I don't have a figure for energy saving but we measured the rate of temperature fall in the front room on a cold day before/after insulating and it reduced by a factor of around 3.

Ventrolia and refurb on sash windows made them much less draughty.

Who undertook the work?

Various contractors, we preferred to use tradesmen recommended by others. Most are no longer active due to time since work was carried out.

Would you recommend them?

N/A

What else would you like to do? And why haven't you done them yet?

Air source heat pump – complex and quite expensive – need to check out at Green Doors!  
Battery storage – waiting for prices to come down a bit with new technology

Have you considered any measures but rejected them? Please give details of what & why.

Proper double glazing – too expensive due to sash windows in conservation zone

Do you have any further comments?

Are there any access issues?

Generally there is parking available in the bays opposite.  
Level access through the back door if needed, steps up to the front door.
